After Hours Care Center Debuts In Southeast Las Vegas

LAS VEGAS – It always seems like midnight, or right in the middle of the weekend, when your little one gets the sniffles. Your doctor’s office and the major quick care chain are already closed. Unfortunately for many Southern Nevadans, the only alternative was an expensive trip to the local emergency room where four to six hour waits are common place – until now.

Today’s opening of Nightlife Pediatrics in the Lowe’s Shopping Center on the northwest corner of St. Rose Parkway and Eastern Avenue, directly across the street from the St. Rose Sienna Hospital, marks a new era in Southern Nevada pediatric care. Parents can now avoid the long wait, and high costs , of hospital emergency rooms with the piece of mind that their children are receiving the specialized pediatric care of board certified doctors instead of the general practitioner at most hospital emergency rooms.

“It is our goal to be an urgent care extension of the patient’s primary pediatrician,” says Michelle Hyla, DO, Director of Pediatrics. “With our years of experience in caring for children of ll ages, both the primary Physician and the parents can be ensured of timely diagnosis with attention to detail.”

The new adult Advance Urgent Care/Children’s Nightlight Pediatrics center will provide care for any acute childhood, adolescent, adult illness or injury including: minor broken bones, prolonged dehydration, lacerations, and minor trauma.

The cnter is located at 9975 E Eastern Ave. or you can call 702-361-CARE (2273) for more information. It can be found on the web at www.advurgentcare.com. Both care centers accept most major insurance plans.

Interviews and news coverage welcome.
